

java.util.* Miscellaneous

Observer
void update (Observable o, Object arg)

Observable ()
Accessors + Collectors
void setChanged ()
void addObserver (Observer o)
void deleteObserver (Observer o)
void deleteObservers ()
Other Methods
int countObservers ()
boolean hasChanged ()
void notifyObservers ()
void notifyObservers (Object arg)
void clearChanged ()

Random
Random ()
Random (long seed)
Accessors
void setSeed (long seed)
Other Methods
boolean nextBoolean ()
void nextBytes (byte[] bytes)
double nextDouble ()
float nextFloat ()
double nextGaussian ()
int nextInt ()
int nextInt (int n)
long nextLong ()
int next (int bits)

SecureRandom
