java.swing.text.*
AbstractWriter

Methods declared in supertypes are hidden in subtypes

T **AbstractWriter**

- # **AbstractWriter** (Writer w, Document doc)
- # **AbstractWriter** (Writer w, Element root)
- # **AbstractWriter** (Writer w, Document doc, int pos, int len)
- # **AbstractWriter** (Writer w, Element root, int pos, int len)

Accessors
- # boolean get / setCanWrapLines ()
- # int get / setCurrentLineLength ()
- # Document getDocument ()
- # ElementIterator getElementIterator ()
- # int getEndOffset ()
- # int getIndentLevel ()
- # int get / setIndentSpace ()
- # int get / setLineLength ()
- # String get / setLineSeparator ()
- # int getStartOffset ()
- # String getText (Element elem)
- # Writer getWriter ()
- # boolean isLineEmpty ()

Other Protected Methods
- # void decrIndent ()
- # boolean inRange (Element next)
- # void incrIndent ()
- # void indent ()
- # void output (char[] content, int start, int length)
- # void text (Element elem)
- # void write ()
- # void write (char ch)
- # void write (String content)
- # void write (char[] chars, int startIndex, int length)
- # void writeAttributes (AttributeSet attr)
- # void writeLineSeparator ()

T javax.swing.text.html. **HTMLWriter**

- **HTMLWriter** (Writer w, HTMLDocument doc)
- **HTMLWriter** (Writer w, HTMLDocument doc, int pos, int len)

Accessors
- # boolean isBlockTag (AttributeSet attr)

Other Protected Methods
- # void closeOutUnwantedEmbeddedTags(AttributeSet attr)
- # void comment (Element elem)
- # void emptyTag (Element elem)
- # void endTag (Element elem)
- # boolean matchNameAttribute (AttributeSet attr, HTML.Tag tag)
- # void selectContent (AttributeSet attr)
- # void startTag (Element elem)
- # boolean synthesizedElement (Element elem)
- # void textAreaContent (AttributeSet attr)
- # void writeEmbeddedTags (AttributeSet attr)
- # void writeOption (Option option)

T javax.swing.text.html. **MinimalHTMLWriter** (Writer w, StyledDocument doc)

- **MinimalHTMLWriter** (Writer w, StyledDocument doc, int pos, int len)

Accessors
- # boolean isText (Element elem)

Other Protected Methods
- # void endFontTag ()
- # boolean inFontTag ()
- # void startFontTag (String style)
- # void writeBody ()
- # void writeComponent (Element elem)
- # void writeContent (Element elem, boolean needsIndenting)
- # void writeEndParagraph ()
- # void writeEndTag (String endTag)
- # void writeHTMLTags (AttributeSet attr)
- # void writeHeader ()
- # void writeImage (Element elem)
- # void writeLeaf (Element elem)
- # void writeNonHTMLAttributes (AttributeSet attr)
- # void writeStartParagraph (Element elem)
- # void writeStartTag (String tag)
- # void writeStyles ()
